Building the 7K Ecosystem

One Idea at a Time.

I'm Kunal — a 12th-grade Arts student with a passion for building apps, learning languages, and playing chess. I dream of becoming a corporate lawyer, but my love for technology is rooted in creating tools that empower and comfort. From productivity apps to language learning platforms, finance trackers to fitness companions — I build digital solutions that make life easier.

Developer • Polyglot • Chess Player • Lifelong Learner

One Idea at a Time.

Philosophy

What Drives Me

Build for Impact

Every app, every line of code, is a problem solved and a tool created to lift humans.

Privacy First

Your data is your data. Period. Self-hosted, AI-ready, & fundamental right.

Continuous Learning

Stagnation is death. Whether it's a new language, a new chess opening, or a new app, I'm always learning, never stop growing.
